LUCE FUORI

Racconti di luce per l'esterno. / Narration through light for the outdoors.

Luce Fuori è la nostra proposta di corpi illuminanti per l'esterno. Sono luci delicate e smaterializzate, pensate per considerare il giardino o il terrazzo come a un'altra stanza della casa ...

Per noi la luce non è solo tecnica, ma prima di tutto significato.

Luce Fuori is our proposal of lighting solutions for the outdoors. They are gentle and dematerialized, developed to consider the garden or the terrace as another room of the house ...

For us light is not only technique, but first of all meaning.

Immaginiamo, da sempre, di portare la luce all'esterno
con la stessa poetica e coerenza che adottiamo all'interno.
Ci piace pensare che si riconosca un pensiero,
una verità di progetto.

Sono cinque i paradigmi che utilizziamo
per portare la luce all'esterno:
la luce delle finestre,
la luce delle soglie,
la luce dei percorsi,
la luce come profondità
e la luce dell'incontro.

We have always imagined bringing light outdoors
with the same poetic we use inside the home.
We like to think that, seeing the final project,
a coherent thought and truth are recognisable.

We apply five paradigms for
the use of light outdoors:
the **light from windows**,
the **doorstep light**,
the **light of pathways**,
the **light as depth**
and the **light of an encounter**.

La luce dalle finestre / The light from windows

È il modo più semplice
di utilizzare la luce all'esterno.
È la luce che viene da dentro
e che talvolta può illuminare
perfettamente l'intorno della casa.

It is the simplest way
of using light outdoors.
It is the light that comes from inside
which can sometimes perfectly illuminate
the outside of the house.

La luce dell'incontro / The light of an encounter

Il fascino della luce sul tavolo.
Gli spazi esterni hanno il cielo stellato come soffitto
ed è per questo che abbiamo sviluppato
alcune soluzioni a batteria ricaricabile.

The charm of the light on the table.
Outdoor spaces have the starry sky as ceiling,
and that is why we developed
some solutions with rechargeable batteries.
