Following the extraordinary success the ECLISSE collection is getting bigger and more versatile.

The new TUBE version presents itself as Suspension, Ceiling and Wall sconce. Both Suspension and ceiling version have 3 different sizes which, combined with the 3 finishes of the metal structure, creates a large variety of possibilities.

The metal structure, Suspension & Wall version: Ø 60 mm
Ceiling version: Ø 100 mm, is a 2 mm thick extruded aluminium tube. The wall sconce has the possibility of a double light emission creating a characteristic light effect on the surrounding wall.

Seguendo lo straordinario successo la collezione ECLISSE viene ampliata creando così un'offerta ancora più versatile.

La nuova versione TUBE si presenta come Sospensione, Plafoniera e Applique. Sia la Sospensione che Plafoniera hanno 3 misure che, combinate con le 3 finiture della struttura metallica, creano una grande varietà di possibilità.

Il tubo metallico, Sospensione e Applique: Ø 60 mm - Plafoniera: Ø 100 mm, è in alluminio estruso con spessore di 2 mm. L'applique ha la possibilità di doppia emissione luminosa creando un effetto caratteristico sulla parete circostante.

[En] > CANDLE is a suspension lamp composed of a tube in striped borosilicate glass that contains a sandblasted PMMA cylinder inside. At the base of the lamp we find an LED whose light spreads throughout the body of the object. The lamp is suspended by the two electrical cables with which you can adjust its height. The canopy is composed of a white painted ceiling structure and a polished chrome or gold cover disc, fixed to each other by magnets.

[It] > CANDLE è una lampada a sospensione composta da un tubo in vetro borosilicato rigato che contiene al suo interno un cilindro in PMMA sabbaiato. Alla base della lampada troviamo un LED la cui luce si diffonde lungo tutto il corpo dell'oggetto. A sostenere la lampada sono gli stessi cavi di alimentazione con i quali è possibile regolarne l'altezza. Il rosone della lampada è composta da una struttura a soffitto verniciato bianco e un disco di copertura in cromo o oro lucido, fissati tra di loro tramite calamite.

CONCERTO

design Brian Rasmussen

[En] > Vintage style lamp collection, composed of curved aluminium elements. Each element contains an E14 bulb that creates a reflected and indirect light. The light inside each curved element, in refraction with the external part of the same, produces a singular light-dark effect. The collection includes: the Suspension, the Applique 1L and 2L, the Floor lamp.

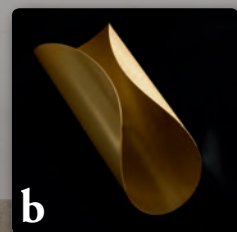

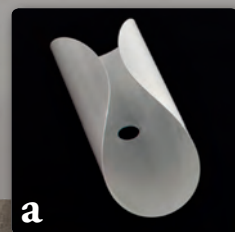

[It] > Lampada di sapore vintage, composta da elementi in alluminio curvi. Ogni elemento ospita una lampadina E14 con cupola argentata che crea una luce riflessa e indiretta. La luce all'interno di ogni elemento curvo, in rifrazione con la parte esterna dello stesso, produce un singolare effetto chiaro-scuro. La collezione prevede: la Sospensione, l'Applique 1L e 2L, la Piantana.

ON

OFF

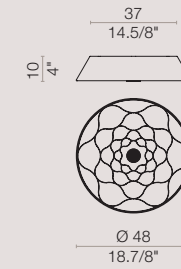

[En] > When the lighting fixtures is off, the surface of the silkscreened glass diffuser looks like an even white surface, and you can see only the outlines of the floral decoration. When on, the surface is alive with different color shades, due to the number of silkscreen layers. Along the outline of the decoration, the light is clearer because there is less color; instead towards the center, where there is more color, the intensity of light decreases.

[It] > La superficie serigrafata del diffusore in vetro piano, quando la lampada è spenta, si presenta come una superficie omogenea bianca in cui si notano solo i contorni del decoro floreale. Con la luce, la superficie si anima di diverse tonalità determinate dalla quantità di strati di serigrafia. Lungo il perimetro, la luce è più chiara poichè minore è l'apporto di colore, mentre verso il centro, dove questo è maggiore, diminuisce l'intensità luminosa.

[En] > Braidings of light.

JAM is a suspension lamp characterised by a metal dome enriched by a complex laser cutted ornament. The contrast between the decorated dome and the minimal superior cone creates an aesthetic balance. The light source is located inside the cone shaped element giving the light fixture a minimal aspect without any technical elements visible. The fixture is suspended with 3 steel wires.

[It] > Intrecci di luce.

JAM è una sospensione composta da un paralume a fasce di metallo realizzato con la tecnica del laser 3D, che dona precisione al movimento delle curve, sovrapposto da un tronco di cono che gli dona stabilità, creando delle geometrie ornamentali. La fonte luminosa è nascosta nella parte superiore, realizzando un interessante contrasto tra vuoti e pieni. La lampada è sostenuta da tre cavi in acciaio che ne permettono la regolazione in altezza.

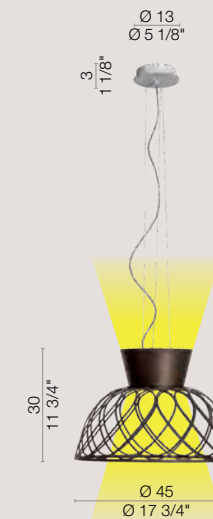

JAMSO30BC (white)

JAMSO30BR (bronze)

JAMSO45BC (white)

JAMSO45BR (bronze)

[En] > The JAM SO Ø45 has double light emission allowing the customer to choose whether to use the direct light source downwards, the indirect light source upwards or both. This feature adds another point to the exclusivity of the product.

[It] > Sono molteplici le possibilità di utilizzo della lampada JAM, la cui fonte luminosa può essere utilizzata a scelta verso il basso o verso l'alto, oppure usufruendo della doppia accensione, donando al prodotto un carattere ancor più volubile e prezioso.

[En] > The decorative aspect of the collection is emphasized in the SPHERE version in which the dome is doubled creating a perfect sphere.

The light effects of the JAM SPHERE are a result of the elegant and geometrical decoration.

[It] > La fantasia che caratterizza JAM è ulteriormente dimostrata dalla versione SPHERE composta da 2 paralumi a fasce posizionati l'uno specularmente all'altro creando così una forma sferica che accentua ancora di più i giochi di luce creati dalle scomposizioni del solido.

[En] > **Solid – Void.**

This collection is composed by a cone in metal and a diffuser in PMMA.

The minimal design of this collection is enriched by the transparent lens that transmits the strong light emitted by the light sources inside the upper metal element.

[It] > **Pieno – Vuoto.**

Si tratta di una lampada composta da un tronco di cono in metallo e un diffusore in PMMA.

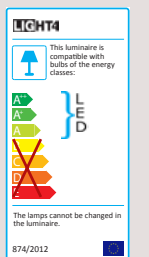

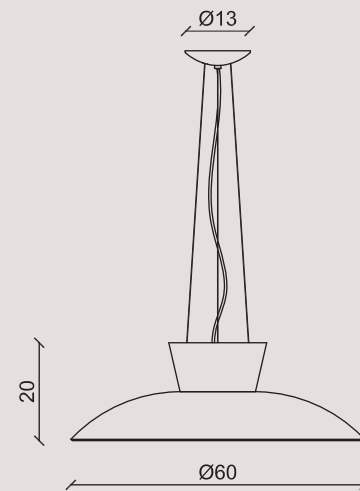

Il design minimale di questa collezione, contrasta volutamente, col forte effetto illuminante.

Ciò è possibile, grazie ad una lente trasparente che veicola il fascio di luce dalle sorgenti luminose all'interno del cappello superiore in metallo.

[En] > Bi-emission lighting.

The constructive principle of the lamp allows a double light emission.

This detail makes the product capable of illuminating the surrounding space with a 360 degrees light.

The upper and lower light emission are equal both for what concerns quantity and colour giving a completely homogeneous effect.

[It] > Bi-emissione luminosa

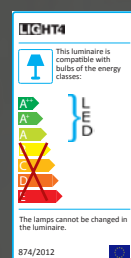

Il principio costruttivo delle lampade rende possibile una doppia emissione luminosa:

in tal modo l'ambiente circostante viene illuminato a 360 gradi.

Inoltre, la luce orientata verso l'alto e verso il basso è uguale sia per quantità che per colore al fine di rendere il flusso di luce completamente omogeneo.

[It] > I diffusori, inferiore e superiore, sono in PMMA opalino. Il flusso luminoso continuo è ottenuto grazie all'assenza di elementi di fissaggio e ad una costruzione innovativa del profilo della lampada che unisce le due pareti in metallo attraverso una staffa anch'essa in metallo. La stessa staffa, poi, sostiene la sorgente luminosa che è inserita in un involuoco di silicone. In tal modo si elimina la puntinatura dello strip LED e si ottiene una luce perfettamente uniforme. La lampada ha emissione luminosa sia verso l'alto che verso il basso.

[En] > A continuous circle of light. The upper and lower diffusers in PMMA are completely without any fixing elements which allows the light emission to be perfectly continuous. This is possible thanks to an innovative construction of the section of the lamp which unites the two sides through an internal metal bracket. The same bracket supports the light source which is integrated in a silicone body allowing the light emission to be completely uniform. The lamp has a double light emission.

Diese Preisliste komplettiert und ersetzt die vorangehend Preislisten. Unter Beibehaltung der Grundeigenschaft der Produkte, behaelt die Firma sich jederzeit das Recht vor, technische Abaenderungen am Produkt vorzunehmen.

CONDICIONES DE VENTA

Los precios se entienden IVA excluido. El precio comprende el embalaje y no incluye la bombilla si no esta diferentemente especificado. MINIMO PEDIDO € 250. La mercancía está atenta y cuidadosamente embalada antes de la expedición por la Compañía, por ello declinamos cualquier responsabilidad por danos causados por el transporte. Cualquier sustitución por roturas o falta de mercancía serán sustituidas solamente con una notificación previa al trasportista y a la Compañía, al maximo 8 dias después de la entrega. El presente lista de precios completa y sustituye a todos los anteriores. La Compañía se reserva la posibilidad de hacer modificaciones en cualquier momento con el unico objetivo de mejorar.

CONDIZIONI GENERALI DI VENDITA ITALIA

- 1) La merce, accuratamente imballata, viaggia assicurata e sarà cura del destinatario controllare la stessa alla consegna, segnalando immediatamente gli eventuali danni al trasportatore e dandone comunicazione scritta all'azienda entro gli 8 giorni successivi alla data di consegna.
- 2) Eventuali difetti riscontrati sugli articoli, non imputabili a danneggiamenti subiti durante il trasporto, dovranno essere segnalati alla azienda per iscritto entro 30 giorni.
- 3) L'Imballo è compreso nel prezzo.
- 4) Le lampadine non sono comprese nel prezzo se non diversamente specificato.
- 5) Il minimo d'ordine è di € 250,00 netti.
- 6) Trasporti:
 - Tutte le spedizioni con importo netto superiore a € 600,00 (IVA esclusa) verranno effettuate in porto franco;
 - Per le spedizioni che non raggiungono il porto franco il trasporto verrà addebitato in fattura in base alle tariffe del corriere in uso;
 - Alle spedizioni effettuate in contrassegno verrà addebitato il contributo di € 11,00.
- L'Azienda non è comunque tenuta ad avisare il cliente del mancato raggiungimento del porto franco, dell'ammontare delle spese di trasporto e dell'effettuazione della spedizione in contrassegno.
- 7) Per pagamenti effettuati mediante ricevuta bancaria l'importo minimo per singolo effetto non dovrà essere inferiore a € 100,00.
- 8) L'azienda si riserva la facoltà di apportare ai modelli della propria collezione, in qualunque momento e senza previa comunicazione, ogni modifica ritenesse necessaria per il miglioramento costruttivo, estetico e commerciale degli stessi.
- 9) La tolleranza per piccole imperfezioni sul vetro e variazioni di tonalità sui colori é quella d'uso per oggetti prodotti a mano.
- 10) L'Azienda non accetta resi se non concordati e autorizzati per iscritto.
- 11) Il presente listino completa e sostituisce i precedenti.
- 12) Per ogni controversia, l'unico insindacabile foro è quello di Treviso.
- 13) I prezzi indicati nel presente listino sono comprensivi di EcoContributo RAEE (Consorzio ECOLIGHT).
- 14) Le misure sono espresse in centimetri.
- 15) I prezzi sono IVA esclusa
